Election/Restrictions

This application is in condition for allowance except for the presence of claims 19-27 directed to an invention non-elected without traverse. Accordingly, claims 19-27 have been cancelled.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

In regard to claim 1, the reasons for allowance found in the appeal brief received February 27, 2007 on pages 5-8 are incorporated herein as the reasons for allowance as the limitation found in lines 6-8 reproduced below

(b) rib areas surrounding the raised areas to anchor the loops; and

(c) between the rib areas, planar areas that are substantially in the plane of the web, the planar areas being defined by the web.

define in combination structure, function and location of the rib areas very specifically relative to both the raised areas and planar areas while also limiting the planar areas to be substantially in the plane of the web and defined by the nonwoven fibrous material of the web. As applicant indicates, there is no suggestion to provide the devices of either Kawanaka (JP 9-3755) or Ito (WO 01/11130) with rib areas having their associated structure, function and location in conjunction with the structure and location of the raised and planar areas as claimed.

As to claim 2, the reasons for allowance found in the appeal brief received February 27, 2007 on pages 9-11 are incorporated herein as the reasons for allowance as the limitation found in lines 5-6 reproduced below

(b) rib areas surrounding the raised areas to anchor the loops; and

(c) between the rib areas, open areas that are substantially free of fibers of the web.

Art Unit: 3677

define in combination structure, function and location of the rib areas very specifically relative to both the raised areas and open areas. As applicant indicates, there is no suggestion found in Harwood (US 3047444) to provide the device of Jackson (US 5699593) with rib areas having their associated structure, function and location in conjunction with the structure and location of the raised and open areas as claimed.

In regard to claim 28, the reasons for allowance found in the appeal brief received February 27, 2007 on pages 11-14 are incorporated herein as the reasons for allowance as the limitation found in lines 5-7 reproduced below

- (b) rib areas surrounding the raised areas to anchor the loops; and**
- (c) between the rib areas, planar areas that are substantially in the plane of the web, wherein the rib areas comprise fused fibers of the nonwoven web.**

define in combination the composition, function and location of the rib areas very specifically relative to both the raised areas and planar areas while also limiting the planar areas to be substantially in the plane of the nonwoven web. As applicant indicates, there is no suggestion found in King (US 5595567) to provide the device of Jackson (US 5699593) with rib areas having their associated composition, function and location in conjunction with the structure and location of the raised and planar areas as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
